Having trouble getting the chords and strumming together?

Keep your 3rd & 4th fingers still changing from C2 to G, and from G to Em7. The small 'o' over some upstroke strums is telling you to do an 'open-chord change' - meaning you change to the new chord whilst playing that strum. The crossed strums are percussive strums - you need to mute the strings to create these. To learn more about chords, rhythm reading and strumming techniques, check out *Modern Guitar Chord Styles, Volume I* - it's absolutely the best book you'll find dealing with rhythm guitar essentials.
